

## A warehouse for Piotr i Paweł in Błonie

Panattoni Europe has signed a contract with upscale supermarket chain Piotr i Paweł for the lease of 5,300 sqm of warehousing space at Panattoni Park Błonie I, near Warsaw. The retail operator will use the space as a cold storage facility for dairy products, fruits and vegetables.

This is Panattoni's second contract with the Poznań-based Piotr i Paweł; the first involved 25,000 sqm of warehouse space in Panattoni Park Poznań I.

## P3 installing solar panels in the Czech Republic

Logistics parks developer PointPark Properties (P3) has signed a deal with solar park operator SolOps to lease the roofs of its distribution halls. The P3 PointPark Prague D1 and PointPark Prague D8 distribution parks in the Czech Republic will provide 335,000 sqm of roof space.

The total annual capacity of the photovoltaic energy (PVE) generated by each facility will exceed seven MWh, ranking them as some of the largest of their kind in Central Europe. As a result, the logistics parks will be energy self-sufficient. This gives PointPark Properties additional resources to improve and expand their existing parks and provide clients with energy at a lower cost.

SolOps, which is renting the roofs and will operate the PVE system, will invest about CZK600 (zl.91.2) million in the project. The entire PVE system is expected to be operational in Q2 2010.

## Tenders

**Type:** Unlimited tender for construction work  
**Location:** Gdańsk  
**Details:** Renovation of chimneys of a number of municipal buildings  
**Bid bond:** zl.8,900
